Ben,

The Republic Services funded Coalition to Keep Us Safe is again perpetuating misinformation as it relates to the EPA's 2008 ROD.

Attached is Facebook post from the CKUS regarding "fact and fiction" at the landfill. The link takes you to a page where CKUS writes **as fact**, "The EPA selected the *encasement* remedy six years ago..." http://www.coalitiontokeepussafe.com/fact_vs_fiction/

I hope the EPA will be able to address this clear and ongoing misrepresentation of the 2008 ROD in a timely manner.

Best regards,
Ed
